PROFILE

I am a graduate Software Developer from Mission Ready. I have a passion for tech and eager to learn. I do have a lot to offer, I will go the extra mile to learn technologies that are needed and I have a passion for creating innovative solutions that make a positive impact on people's lives.

In addition to my technical skills, I am a strong communicator and team player, I thrive in fast-paced environments and am always looking for ways to improve my skills and knowledge.

I am now seeking a challenging role that will allow me to continue to grow as a developer and make a meaningful contribution to the tech industry. If you are looking for a dedicated and skilled developer who is passionate about using technology to make a positive impact, then I would love to hear from you.

WORK EXPERIENCE

Dacreed— 2023-2023 — Intern software developer

Dacreed is an online learning experience platform and during my internship I collaborated with designers and developers to create and refine website designs and also designed and implemented a database schema using postgresql. I used technologies including Typescript, Tailwind, Next.js and tRPC.

EDUCATION

Mission Ready — 2023-2023 — Cloud & DevOps Developer L6

Mission Ready is an Advanced Software Developer Course where they helped me get real world experience, I did a 10 week internship with Dacreed and learnt all about working as a software developer. I have recently graduated Mission Ready and ready to start my new career!

Mission Ready — 2023-2023 — Cloud & DevOps Developer L5

Mission Ready is an Advanced Software Developer Course where they taught me about cloud services, AI services, architectural patterns, agile mindset & practices, Devops & automated deployment, unit testing & more.

SheCodes — 2021—2022 — Front - End Developer

This course really taught me a lot about Everything front-end including React, JS, HTML, CSS, API's, Hosting, SEO, GitHub, Bootstrap & more. By the time I finished all of SheCodes courses I felt confident in Front-End Development.

NZSE — 2017-2018 — Level 5 Computer servicing Certificate

This course really helped my understand all the hardware components and how to build and service computers from scratch, although not really software related it is still helpful

TECHNICAL SKILLS
